Here is an easy to follow tutorial that will show you how to setup the live TV PVR IPTV Simple Client on Kodi. If you are interested in live TV I have also created a page which shows links to some of the best Live TV addons for Kodi. Use this link to view that page.

As a Kodi user I recommend using a VPN. This will help unlock geoblocked content, unblock sources and keep you anonymous online. You can get 25% off any package from IPVanish using the checkout code SEOM

Open Kodi Select SYSTEM→Settings

Select TV (or Live TV if you are on a version lower than 15.2 and if you are then consider updating)

zidoo technology support center www.zidoo.tv

Select General

O Settings - TV		8:37 PM
Confluence	TV - Settings	×
	Enabled	
General	Synchronise channel groups with backend(s)	
Menu / OSD		
Guide	Search for channels	
Playback	Clear data	
Recording	Reset above settings to default
