

Make sure your system configured for audio bitstream
Find the corresponding way to set audio your bitstream output between
the different models below:

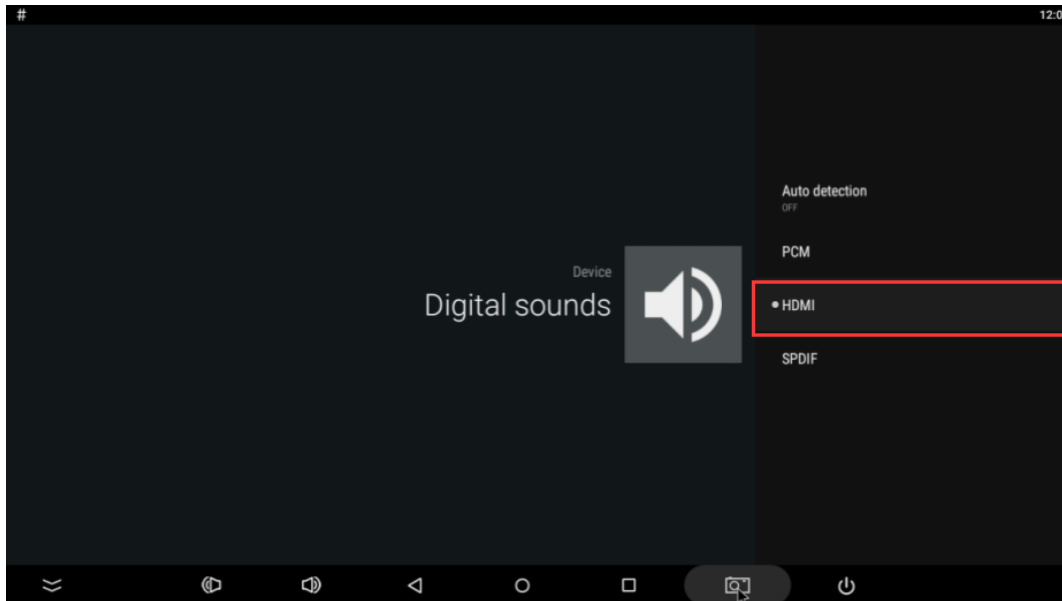

ZIDOO_X9 : Settings→System→sound→S/PDIF→RAW

**ZIDOO_X6 : SETTING→Settings→sound&Notification→Audiooutput
t→HDMI Bitstream**

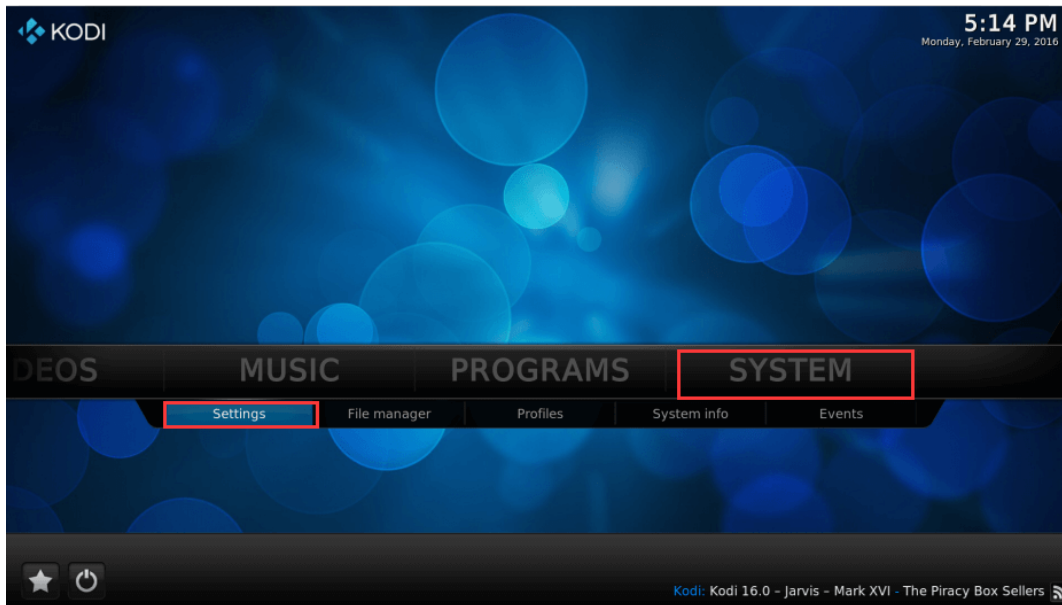

ZIDOO_X5 : SETTING→sounds→Digitalsounds→HDMI

ZIDOO_X1II : SETTING→Sound Devices Manager→HDMIBitstream

Open Kodi / XBMC, Hover over System and then click on Settings

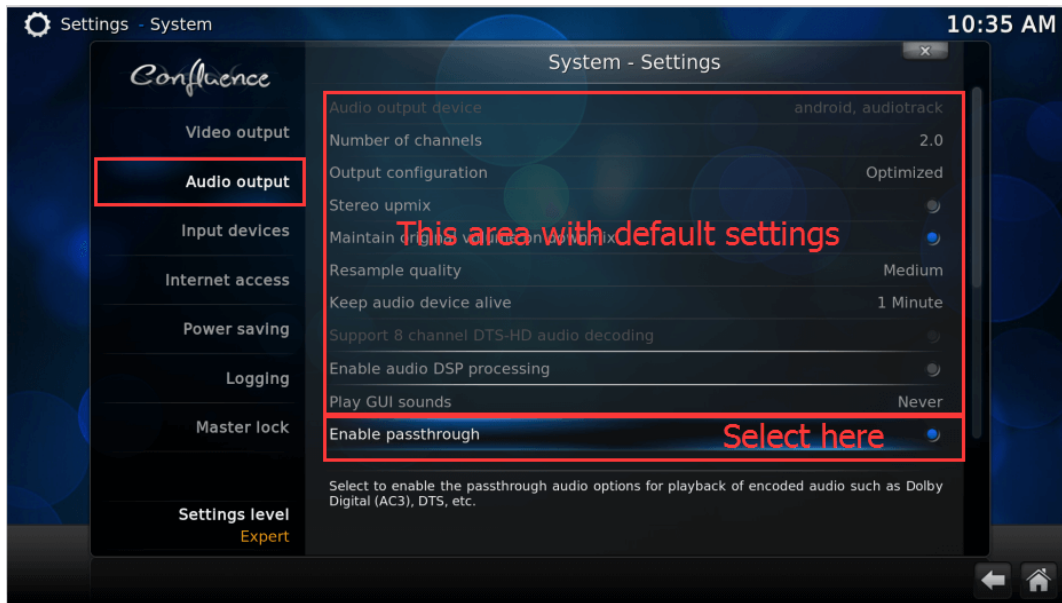

Click Settings level to Advanced or Expert.

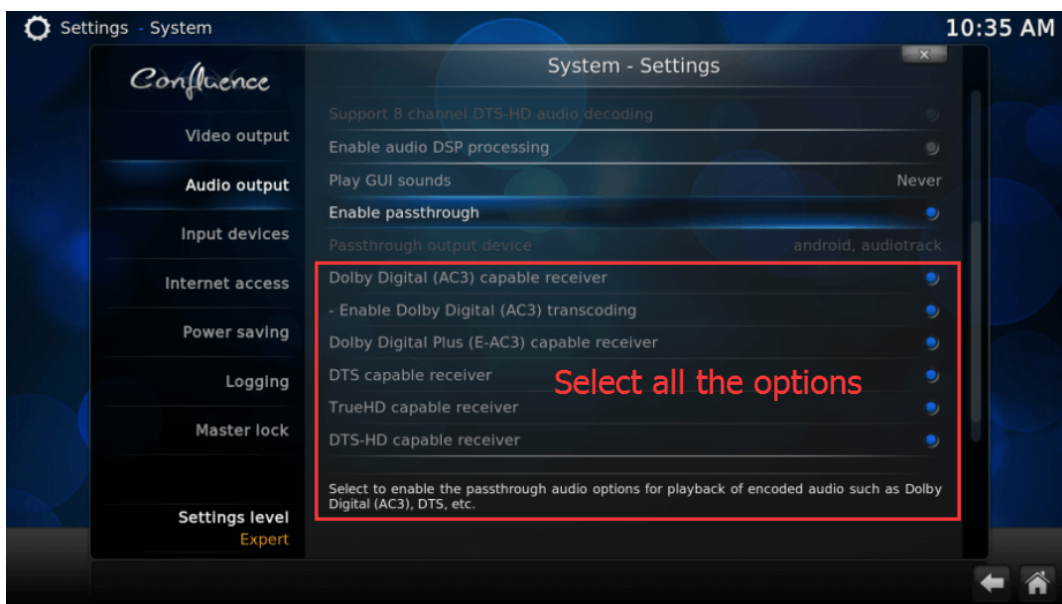

Return to Audio output and select Enable passthrough

Note: You don't need to select the Number of channels, leave all the other settings above Enable passthrough at default values.

Scroll down and select all the options

This completes the audio bitstream settings.
